25X1 The scheduled "off-the-record" meeting with [ ] took place  
here on Monday. We gave her full opportunity to present her views which she  
clearly appreciated and took advantage of for some two hours. We assured her

We approved Senator Huddleston's request that his office be permitted to  
film him in front of the Agency. For cover and disruption reasons, I have  
asked that it be done on a Saturday afternoon or Sunday. I noted how pleased  
we are that he would want to be filmed in front of CIA. Times have changed.

Publications Review Board

On Tuesday, the PRB completed its review of the extracts from Congressman Whitehurst's diary which he plans to include in a book. There were numerous deletions, which were made to protect intelligence sources. OLL will advise Mr. Whitehurst.

Presentations

I continue to brief Agency courses and seminars on the current role of this office and find considerable interest in it. We have accumulated a long list of employees who have evinced interest in working here.

The Presentations Officer addressed Political Science students at George Washington University and met with a group of nine students from Lynchburg College at the Agency. All nine expressed interest in employment here and the five who were most actively interested were put in touch with an OP representative on the spot.

The Academic Coordinator and Presentations Officer briefed six OGI managers and analysts who will be making recruitment trips throughout the country to fill extensive vacancies for geographers, agricultural economists, sensor technicians/analysts, and other technical analysts.

Mail

There is great support among the nine-year olds for the Agency. We received a letter from a group of young lads in Kansas who want to start a CIA fan club and asked if we could supply the T-shirts. Patriotic boy scouts have also offered to help us fight terrorists as long as we don't tell their mothers they have written us. Their sense of security is already well developed!
